UAT Info

UAT PLAN INFORMATION			
Fill in the yellow cells			
1. GENERAL INFORMATION			
Project name	PW – Business Partner Recognition & Verification Platform (NFT / Blockchain)		
Project code	PW_PROJECT		
Version / Release	v1.0 – MVP (Release 1)		
Reference requirement documents	BRD final (FR-001–FR-035, NFR-001–NFR-010); SRS final (UC01–UC34); User Stories & AC final (PW_US_AC, 36 US); BPMN D0–D7.2		
UAT environment (URL)	[To be provided by the Dev team]		
Build / Commit	[To be provided by the Dev team]		
UAT start date	2026-10-07		
UAT end date	2026-10-16		
In-scope	Onboarding & KYC, Login, Wallet (custodial + link/unlink non-custodial), Titles & Pricing, Purchase & Card Payment, Gift Title, NFT Minting, NFT Transfer, Points & Year-2 Discount, Public Directory & On-chain Verification, Ranking, Admin Portal (KYC Review, Grant Award, Revoke NFT, Adjust Points, Audit Logs), AI Assistant		
Out-of-scope	Load/scalability testing (NFR-006/007), smart-contract security audit, real-money payments (sandbox cards only), operating blockchain nodes, non-card payment methods, end-user training		
2. PARTICIPANTS			
Role	Full name	Organization / Team	Responsibility
Product Owner / Business representative			Approves results, signs the acceptance
Project Manager			Coordinates the UAT schedule, tracks progress
Business Analyst	Nguyễn Đoàn Hồng Nhung	PW project team	Writes scenarios, supports users during testing
Key User / Business user			Runs the tests, records the results
QC Lead			Prepares test data, manages the Defect Log
Dev Lead			Receives and fixes defects
3. ENTRY CRITERIA			
☐	SIT completed; no open Critical/Major defects		
☐	UAT environment and test data ready (test accounts below, sandbox payment cards, Circle sandbox, blockchain testnet)		
☐	UAT scenarios reviewed and approved by PO/BA		
☐	Test accounts provided to users		
4. EXIT CRITERIA / ACCEPTANCE THRESHOLDS			
Minimum pass rate	0.95		
Minimum execution rate	1		
Max open Critical defects	0		
Max open Major defects	2		
The thresholds above are suggested values – adjust them as agreed with the PO. The 'Summary' sheet uses these cells for the evaluation.			
5. TEST ACCOUNTS & TEST DATA (prepared by QC before UAT starts)			
Test account	Type / Role	Initial state	Used in

apex@gmail.com / 123456Aa@	Company (built in): Apex Global Syndicate Inc., Switzerland	Class 4 · KYC verified · member since 01 Oct 2024 (eligible for the 20% Year-2 discount) · 2,450 PTS · 4 NFTs (3 Titles + 1 Award) · PW wallet 0x4f3a…9c21 + linked Ledger wallet 0x8b2e…41d7 · saved card Visa •••• 4492 (default)	Wallet, transfer, gift buyer, points, ranking, revoke target
nova@gmail.com / 123456Aa@	Company: Nova Harbor Ltd. · representative Daniel Brooks · United Kingdom · 51–200 employees → Class 2	Not registered: you register it in TC-004. New account: 0 PTS, no wallet, no saved card, no NFT	KYC, first purchase, pricing, empty states
emily@gmail.com / 123456Aa@	Individual: Emily Carter · Singapore → Class 0	Not registered: you register it in TC-005. New account: 0 PTS, no wallet, no saved card, no NFT	Individual flows, Class change (TC-086), Grant Award to a member without a wallet
admin@gmail.com / (admin password)	PW Admin (built in)	Admin role; Admin Portal only	KYC review, award, points, revoke, audit logs
Marcus Vance (Vance Holdings AG) and every other Directory entity	Gift recipient (directory record, no login)	Sample recipients (no login). Verified entities in the Directory; any of them can receive a gift	Optional gift recipient; the gift test cases use Nova
Elena Rostova (Helios Energy GmbH)	Gift recipient (directory record, no login)	Not verified (no KYC)	Blocked gift recipient
Test cards	Payment (sandbox, no real money)	Apex saved: Visa •••• 4492. Nova new card: 4242 4242 4242 4242 · 12 / 29 · 123 · Daniel Brooks Apex new card (TC-040): 5555 5555 5555 4444 · 08 / 30 · 123 · Daniel Brooks. Invalid card (TC-042): 4242 4242 4242 4241. There is no "declined" card	Payment
Wallets	Non-custodial	Any address starting with 0x and 40 hex characters; signing is simulated (no real wallet needed). Apex already has the Ledger wallet 0x8b2e…41d7. Test addresses: link 0x71C7656EC7ab88b098defB751B7401B5f6d8976F (TC-026/027); transfer 0x71C7656EC7ab88b098defB751B7401B5f6d8976E (TC-054…056, 062)	Link, unlink, transfer
Reset	Landing Page button	The web keeps all data after F5. Click "Reset" ONCE before Test Order 1 to restore the start state (Apex as above; Nova and Emily not registered; Admin built in)	Run once at the start of the Test Order

Defect Log

DEFECT LOG – UAT DEFECT TRACKING														
Log every Fail/Blocked case here and link it to its TC ID. Bug ID format: BUG-001.														
No.	Bug ID	Related TC ID	Module	Defect Title	Description / Steps to Reproduce	Severity	Priority	Defect Status	Reported By	Reported Date	Assignee	Target Fix Date	Closed Date	Notes
1	BUG-001	TC-015	Onboarding & KYC	Save Draft & Exit' button on the KYC screen does not work	Precondition: Created account successfully, KYC status = "Not submitted" 1. Open "Verify your identity" (KYC) 2. Enter some KYC information (e.g. Legal entity name, Document type) 3. Click "Save Draft & Exit" 4. Log out, log in again and reopen "Verify your identity" Actual: Nothing happens when clicking "Save Draft & Exit" – no confirmation, the user stays on the KYC screen, and the entered data is not kept. Expected: The draft is saved, KYC status stays "Not submitted", and the saved information is shown again so the user can continue (US-ON03 – Scenario 5).	Major	Medium	Fixed	Nguyễn Đoàn Hồng Nhung	2026-10-06				

Summary

UAT RESULTS SUMMARY								
Automatic sheet – no input needed								
1. TEST CASE EXECUTION PROGRESS								
Total test cases	121	% of total						
Pass	121	1						
Fail	0	0						
Blocked	0	0						
Not Run (incl. empty)	0	0						
N/A	0	0						
Executed (Pass+Fail+Blocked)	121							
Execution rate (excl. N/A)	1							
Pass rate (excl. N/A)	1							
2. RESULTS BY MODULE								
Module	Total TC	Pass	Fail	Blocked	Not Run	N/A	Pass Rate	Open Defects
Onboarding & KYC	17	17	0	0	0	0	1	1
Login & Access	6	6	0	0	0	0	1	0
Wallet Management	12	12	0	0	0	0	1	0
Titles & Pricing	5	5	0	0	0	0	1	0
Purchase & Payment	9	9	0	0	0	0	1	0
Gift Title	5	5	0	0	0	0	1	0
NFT Minting	2	2	0	0	0	0	1	0
NFT Transfer	12	12	0	0	0	0	1	0
Points & Discount	10	10	0	0	0	0	1	0
Directory & Verification	11	11	0	0	0	0	1	0
Ranking	3	3	0	0	0	0	1	0
Admin – KYC Review	6	6	0	0	0	0	1	0
Admin – Award, Revoke & Points	9	9	0	0	0	0	1	0
Audit Logs	4	4	0	0	0	0	1	0
Notifications & AI Assistant	10	10	0	0	0	0	1	0
3. DEFECTS BY SEVERITY & STATUS								
Severity \ Status	Open	In Progress	Fixed	Reopened	Closed	Rejected	Total	Open
Critical	0	0	0	0	0	0	0	0
Major	0	0	1	0	0	0	1	1
Minor	0	0	0	0	0	0	0	0
Trivial	0	0	0	0	0	0	0	0
Total	0	0	1	0	0	0	1	1
"Open" = every status except Closed and Rejected (Fixed still counts as open until retested).								
4. UAT EXIT CRITERIA EVALUATION								
Criterion	Threshold	Actual	Result					
Pass rate ≥ threshold	0.95	1	Met					
Execution rate ≥ threshold	1	1	Met					
Open Critical defects ≤ threshold	0	0	Met					
Open Major defects ≤ threshold	2	1	Met					
CONCLUSION			READY FOR ACCEPTANCE
